

Description:

MCB-NR6600 is a wall mounted network rack. Suitable for comms rooms, office server rooms, and computing rooms. Made from Zinc Coated Steel which is fully welded at assembly with a considerable load capacity. The load capacity of this cabinet does depend on the wall and mountings used. Comes with standard 19" mounting profiles to EIA and CIA standards. The front door is clear Perspex and can be mounted to open to the left or right depending on the requirements of the installation. The rear of the cabinet is solid and features 4 fixing holes. Can be used with built in fan trays (sold separately) to assist with heat dissipation.
